

# MALIK HARRISON

## Summary

Hello, I'm a curious mind from San Bernardino with a background in media arts & software development. I have a passion for creation and a drive to make anything possible. From product design, ad creation, and e-commerce tools, I like to make them all. I've been coding for four years now with an emphasis on web. But in my free time you will see me using my skills to market my woodworking hobby on Etsy.
